Whether you enjoy snorkeling in shallow waters or prefer to dive deep into a scuba adventure, Florida has miles of breathtaking reefs for you to explore.

**SOME TOP REEF DESTINATIONS:**

1. The Florida Reef Tract is the only extensive living coral reef in the United States and the third-largest barrier reef ecosystem in the world.

2. Pinellas #2 Reef, near the mouth of Tampa Bay, features multiple vessels, and a pile of culverts. It is considered one of the best West Central Florida wreck dive sites.

3. The USS Oriskany, a retired aircraft carrier, was intentionally sunk in 2006 just 22 miles south of Pensacola. It is the largest artificial reef in the world, with depths ranging from 80 to over 200 feet of water.

4. Jacksonville’s reef system features vessels, planes and culverts placed along more than 40 miles of the continental shelf.

5. The southeast coast, from Miami to Jupiter, features dozens of artificial reef sites and historical shipwrecks.
